

## APFG-2 Aluminum Double head screw capping Machine

### **1) Introduction:**

It can be applied for different kinds of material and different types of cap. Adopt identity torsion capping head, the capping device could not damage the cap. Applied for Aluminum Cap.

**2) Main technical parameters:**

Suitable bottle size; Customized

Speed : 50-60 bpm,

Capping nozzles: Two

Power Supply: 220V 60Hz

Power: 2Kw

Dimensions: 2200×1000×1800MM

**3) Configuration List**

No.	Name	Model
1	PLC	DVP14SS11T2
2	Touch screen	DOP-B05S100
3	Transducer	FR-A740-0.75K-C
4	Pneumatics	
5	Sensor	BW200-DDT
6	Cam wheel	RTT80-10-2: 1
7	Cap vibrator	500 (304 #)
