

APGPV-30 Automatic glass bottle twist capping machine with vacuum pump

Introduction:

This machine is specially designed for vacuum or non-vacuum and spinning or non-spinning sealing operation for screw-socket bottle with advantages such as good availability, high automation, reliable sealing ,easy operation and maintenance and nice-looking appearance.

Technical Parameter:

Model	APGPV-30
Suitable bottle material	Glass
Cap size	38-80bpm
Bottle Diameter(mm)	50-80bpm
Bottle Height(mm)	75~210mm
production Rate(bottle/ min)	35-40bpm
Capping Torsion	5-25kg.cm
Air source:	0.5-0.8MPa
Air consumption	0.3m ³ /min
Power	AC380V 50-60HZ 3KW
Vacuum degree	-50KPa to -70KPa
Conveyer height	800+/-50mm adjustable
