ABOUT US

WHO WE ARE?

ALE International LLC specializes in the supply, installation and service of high quality Intralogistics, Packaging & Commercial Kitchen Equipment. ALE is part of the holding company **BARNSELY UNIVERSAL INC.** - owner of the **ATCO** brand and one of the largest stockists of its core products in the industry.

We are specialist suppliers, integrators, solutions & service providers of a comprehensive range of:

INTRALOGISTICS

- Warehouse Automation
- Material Handling Equipment
- Racking & Storage Solutions
- Loading Bay Equipment
- Weighing Scales & Systems
- Software Solutions
- Industrial Cleaning Equipment

PACKAGING

- Filling & Packaging Lines
- Modified Atmosphere Packaging
- Food Inspection Systems
- End of Line Packing
- Coding & Marking

COMMERCIAL KITCHEN

- Turnkey projects for Kitchens, Restaurants, Cafes & Bakeries
- Equipment for Bakeries, Confectioneries, Meat Processing Vegetables Processing
- Equipment for Cooking, Refrigeration, Dish/warewash

Our products are designed & manufactured in association with highly reputed OEMs, in accordance to our stringent quality specifications, with the use of branded core components as a standard, keeping in mind global industry standards. Along with selling ATCO products, we represent internationally renowned brands to complement our product range and to be able to cater to a wider range of requirements in the industry.

WHY US?

SINCE

2001

PRODUCTS

300+

HAPPY CLIENTS

7000+

WORLDWIDE INSTALLATIONS

- High quality products at affordable prices, tried and tested in the marketplace for over 22 years
- Professional management
- Streamlined business processes
- Large inventory of finished goods and spare parts
- Know-how of the industry & market as a whole to provide the right solution & product for the right application
- Team of professionally trained sales & service engineers who ensure a smooth experience for the customers, right from project consultancy, to supply of the right product, to installation, training and after sales service

Productivity, Performance, Safety, Stability, Durability - remain the hallmarks of our products

Rotary Perfume Filling & Capping Machine

APLM-SG-D is an automatic rotary Perfume Cleaning, Filling, Crimping, and collaring machine . This is used for filling perfume, floral water, and other water-based materials. It is a rotary type machine with 4 filling heads, which could fill 4 bottles at the same time. It is efficient and labor-saving. It consists of automatic air cleaning, filling, pump positioning, crimping & collaring device. Main function of this machine is automatic by the system. Only need to put bottles, pump & collar manually.

Product Code	APLM-SG-D
Bottle height	50-180mm
Filling speed	25-35bpm
Filling range	10-150ml
Working station	20
Size	2008mm x 2100mm x1800m
	With adjusting molds
	With explosion proof glass shield

Features

- » Mold is adjustable for different sizes/shapes of bottles, but if some shape or size is not normal, then can not use this machine, so general, if customer place order, we should check samples before production.
- » Speed is 25-35 bpm.
- » With automatic pump & collar feeders, this machine only needs one worker to put bottle on mold.
- » With air cleaning system, no need buy extra cleaning machine.
- » Explosion proof electric box and motors.
- » With a small SS304 50L movable storage tank which can control perfume feeding, because it has float ball in side.
- » Machine is small, no need big space.

Perfume Freezing Filter

Harnessing advanced freezing technology, this machine promises impeccable separation of impurities, ensuring the pristine quality of every perfume batch.

Features

- » This machine is specialized in freezing, clean up, filter cosmetic liquid, perfume.
- » Advantage of this machine are compact structure, space saving, stability, easy to operate.
- » This machine is made by SUS304 material, adopt USA Sandpiper pneumatic transfer pump to transfer liquid and give pressure.
- » Adopt imported France Maneurop freezing device. Cooling by Titanium alloy coil.
- » Circulation and cooling system adopts sanitary SUS304 material pipes.
- » Easy to operate, install, disassemble and clean.
- » SS temperature preservation cooling tank and Titanium metal coil.
- » Freezing device(origin: France).
- » Anti-corrosive pneumatic transfer pump(origin: USA).
- » Polypropylene Microporous Filtration Membrane.
- » SS movable stand.
- » Sealed electronic control system and sanitary pipe valves.

Storage Tanks

It is a customized series. The working capacity, material etc. can be made according to the customer's requirement. It is an ideal storing equipment for daily cosmetic pharmaceutical, food industry that meet the GMP standard.

Moveable Sealed Tank

Tank with Double Layers

Tank with Pneumatic Mixer

Horizontal Storage Tank

Bottle Washer

Elevate your cleaning operations with ATCOPACK's Bottle Washer, the epitome of efficiency and precision. Boasting an impressive 48 washing heads, this machine effortlessly handles a robust cleaning capacity of 2,000 to 3,000 bottles per hour. Engineered with an energy-efficient 1.25Kw/220V motor featuring frequency control, it ensures optimal performance while minimizing operational costs.

Product Code	AP LM-SXP-B
Washing Heads(pcs)	48
Capacity(B/H)	2000 - 3000
Motor Power	1.25Kw/220V/Frequency Control
Suitable Bottle Height (mm)	50 - 150
Suitable Bottle Diameter (mm)	25 - 80
Water Consumption	1.5m ³ /h
Working Pressure (Mpa)	0.2 - 0.4
Machine Weight (Kg)	330

Air Cleaning Machine

Experience unmatched purity and efficiency with ATCOPACK's state-of-the-art Air Cleaning Machine. Engineered for optimal performance, this machine boasts a swift cleaning speed, handling 30-40 bottles per minute, ensuring every container meets the highest hygiene standards. With a precise air consumption rate of 60 L/min and operating under a consistent air pressure of 4-5 kgf/cm², this machine is synonymous with reliability and efficiency.

Product Code	APLM-QSP
Washing Speed(B/min)	30-40
Air Consumption(L/min)	60
Air Pressure (kgf/cm ²)	4-5
Power Supply(V/Kw)	220 / 0.4
Machine Weight (Kg)	78
Machine Dimensions (LxWxH)mm	700 x 610 x 1230

Features

- » Easy and convenient operation.
- » It can clean the dust and impurity inside the bottle, with device to eliminate static.
- » The time for cleaning can be set according to your requirement.
- » Adopt double (blow/inhale) working station, clean the dust in the bottle.
- » Ensure the purity of the air source with precise Filter.

10 Head Rotary Perfume Filling Machine

It is the ideal automatic perfume filling machine for liquid such as floral water, perfume, lotion, and other materials. Continuous rotary filling, suitable for all kinds of bottles without changing the mold can provide explosion proof type.

Product Code	ALM-SG-C
Filling Scope (ml)	30-500
Production Capacity (B/H)	1000-3000
Rotary Control	Frequency stepless
Vacuum Control	Imported Pneumatic Vacuum Generators
Single Machine Noise	≤70dB
Machine Dimensions (mm)	1168 x 1168 x 2000
Machine Weight (Kg)	900

Semi Automatic Four Head Filling Machine

Experience precision and efficiency with ATCOPACK's Semi Automatic 4 Head Filling Machine. Designed for optimal throughput, this machine boasts a filling speed of 40 bottles per minute, ensuring swift operations without compromising on accuracy. Equipped with four dedicated filling heads, it offers consistent and uniform filling, adaptable to a wide range of volumes up to 500ml.

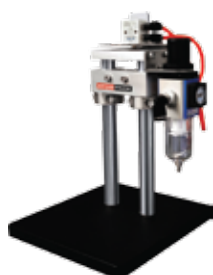

Product Code	APLM-SG-C
Filling speed	40 bottles/min
Filling Volume (ml)	0-500ml
Filling heads	4
Bottle Height (mm)	≤250mm
Max diameter (bottle hole)	≤20mm
Suction speed	5.5L/min
Power	220V/50Hz

Semi Auto Pump Pipe Cutting Machine, Collaring Machine & Crimping Machine

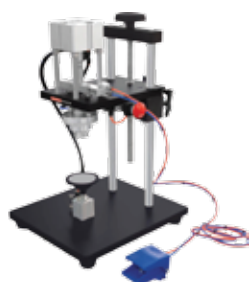

The Pump Pipe Cutting machine is capable of handling a wide variety of pump pipe sizes. It has a cutting range of 30 - 140mm.

The Perfume Collaring Machine precision mechanism guarantees that each collar is placed accurately, enhancing the visual appeal and ensuring the integrity of the perfume bottle's design.

Perfume Crimping Machine operates through a clamping mechanism, that meticulously closes the cap, anchoring it firmly to the bottle's edge.

Pump Pipe Cutting Machine

Collaring Machine

Crimping Machine

Belt Conveyor

Product Code	APLM-BP
Material	Stainless Steel SUS304; Thickness:1,2mm; supporter:38x38
Rack	with leg supporter, the range of the height is 0-10
Belt (mm)	imported from holland, width:250, match with the platform
Platform (mm)	Stainless steel, width: 250x2, protector: 30x2
Motor Power (Kw)	0.55
Bearing Weight (Kg)	200
Frequency Convertor	Taiwan Taida

Features

- » Adopts Frequency control » Simple structure, convenient operation.
- » The whole machine is made from stainless steel.
- » Equipped with belt imported from Holland.

Aerosol Packaging Machine

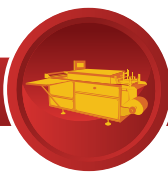

The Automatic Aerosol Filling Machine, crafted with advanced technology, offers a refined and efficient solution for aerosol packaging needs. Its independent control over the filling end ensures that there is no discharge without filling, promoting cost-effectiveness and reducing wastage.

Moreover, the machine is designed with a sealing-guided feature, providing automatic halts in operation if it detects subpar sealing quality. It employs a highly accurate and efficient inflation method at the charging end, which minimizes gas consumption.

For added convenience, the machine can be coupled with an automatic weighing machine to enhance precision in your production line. This comprehensive system comprises an automatic inlet device, three liquid filling nozzles, a capping device, and three gas filling nozzles, ensuring a streamlined and high-performing aerosol packaging process.

The whole machine is controlled by pneumatic and can be controlled separatel.No can, no material out.

OVERWRAPPING MACHINES

Semi Automatic Overwrapping Machine

The Semi Automatic Overwrapping Machine is a highly efficient and adaptable solution designed specifically for wrapping small and medium-sized boxes.

Product Code	APAW-MINI
Lenght (L)	Min 50 mm - Max 250 mm
Height (H)	Min 30 mm - Max 80 mm
Capacity	5 - 20
Width (W)	Min 50 mm - Max 150 mm
Outline Dimensions	150 x 85 x 110 cm
Power	1 KW, 1 Phase, 220 VAC

Automatic Overwrapping Machine for Small & Medium Size Boxes

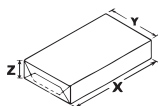

This machine is an ideal choice for industries seeking a reliable and automated solution for overwrapping boxes of various sizes, providing efficiency and flexibility in packaging operations.

Product Code	APAW2003-SF
Lenght (L)	Min 50 mm - Max 310 mm
Height (H)	Min 10 mm - Max 80 mm
Capacity	20 - 40
Width (W)	Min 50 mm - Max 110 mm
OPP Lenght	Min 150 mm - Max 420 mm
Power	3.5 KW, 380V - AC 3 Phase

Automatic Overwrapping Machine for Medium, Big & Multi Box Pack

Our Automatic Overwrapping Machine for Medium & Big Size Boxes is an ideal choice for industries dealing with larger box dimensions.

Product Code	APAW55-SRV
Lenght (L)	Min 50 mm - Max 310 mm
Height (H)	Min 20 mm - Max 100 mm
Capacity	10 - 30
OPP Lenght	Min 150 mm - Max 580 mm
Width (W)	Min 50 mm - Max 210 mm
Power	5 KW, 380V - AC 3 Phase

Lotion Making Machine / Emulsifier

Our range covers an extensive capacity spectrum from 10L all the way up to 3000L, ensuring we cater to both artisanal creators and large-scale manufacturers. Choose from 10L, 20L, 30L, 50L, 80L, 100L, 200L, 300L, 500L, 1000L, 2000L, and 3000L models based on your production requirements.

Product Code	APLMM
Application	Liquid With Suspended Solids
Type	Fix And Tilting
Control	Button Control Or By Touch Screen
Mixer Type	Homogenizer
Mixing Speed	0-80 R/M
Heating Method	Steam Or Electricity
Material	SUS304 And SS316
Usage	Produce Cream, Gel, Lotion, Shampoo Etc

Features

- » Strictly made according to GMP standard design and production , polish meet 300U.
- » The inner parts adopts 316 stainless steel.
- » Bearing adopts Japanese NSK.
- » Imported frequency conversion control.
- » Machinery sealing with excellent sealing quality and performance, the homogenizer can work 24 hours continuously.
- » Scraper blending and stable blending work at the same time.
- » Electric heating and steam heating option.
- » Wide suitability
- » Labour saving
- » Easy to use and maintain

Automatic Tube Filling Sealing Machine

In the dynamic world of packaging, ATCOPACK brings forward the epitome of technological brilliance – the Automatic Tube Filling Sealing Machine. A perfect amalgamation of speed, precision, and adaptability, it's meticulously crafted to cater to the ever-evolving demands of modern industries.

Operation Speed	30-50/min/max
Filling Range	3-250ml
Suitable Tube Length	50-210mm
Suitable Tube Diameter	12-50mm
Working Pressure	0.5-0.6MPa

Automatic Lotion / Cream Filling & Capping Machine

Elevate your production line with the Automatic Lotion/Cream Filling & Capping Machine by ATCOPACK – a synergy of efficiency, precision, and cutting-edge technology tailored for the skincare industry.

Product Code	ALM-SRG-A
Production Capacity	10-20 bottles/min (according to operation staff and filling range)
Cleaning	Electrostatic eliminating air, vacuum suction
Nozzle Lifting Control	Panasonic Servo Motor Control
Filling System	Panasonic Servo Motor Control
Capping System	Panasonic Servo Motor Control
Discharge	Unilateral Clamping Type
Power Supply	220V /2KW Single Phase
Air Pressure Source	0.5Mpa ~ 150L/min

Automatic Lotion / Cream Filling Machine

Discover precision engineering combined with relentless efficiency in the Automatic Lotion/Cream Filling Machine by ATCOPACK – a prime choice for skincare professionals and manufacturers who prioritize excellence.

Product Code	AP LM-ZDGT-A
Suitable Bottle Size	Ø 20 ~ Ø 100mm
Production Capacity	1000~3000 (filling range, container diameter varies)
Power Source	220V/50Hz
Electric Power (Kw)	≤ 0.5
Required Air pressure (Mpa)	0.4 ~0.8
Speed Control	Frequency Control
Noise of Single Machine	≤ 70bB
Machine Weight (Kg)	260

Semi Automatic Lotion / Cream Filling Machine

Dive into a world of precision, efficiency, and adaptability with ATCOPACK's Semi-Automatic Lotion/Cream Filling Machine. Expertly crafted to suit the nuanced requirements of both cosmetics and pharmaceutical industries, this machine is the nexus of innovation and reliability.

Product Code	ALM-GT
Filling Scope (gm)	3-30 / 5-150 / 20-500
Production Capacity	20-40(Pcs/min)
Filling Accuracy	0.5%
Filling Quotas	1 pc
Number of Hopper	1
Hopper Capacity	35L
Drive Pressed Air	4kg/cm ² - 6kg/cm ²

Semi-Auto Liquid Filling Machine

Semi-automatic piston type filling machine for viscous and non-viscous products. Filling quantity and speed can be adjusted. Easy to operate, with high accuracy. Simple to maintain and clean.

Thin Liquid

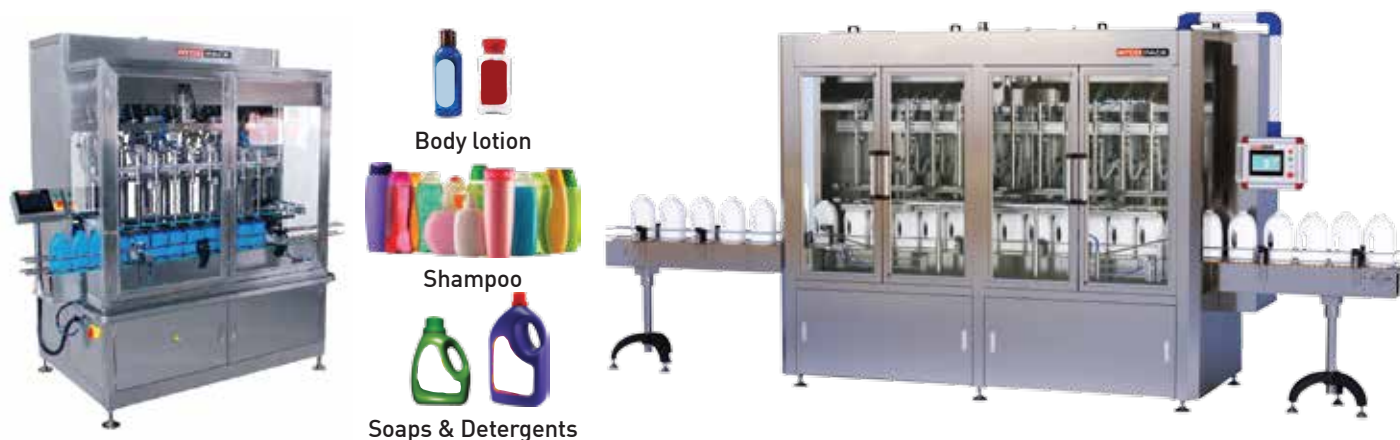

Thick Liquid

Automatic Straight Line Piston Filling Machine

Tailored to meet diverse production demands, our filling line offers a choice of nozzle configurations. Whether you opt for 4, 6, 8, 10, or 12 nozzles, you are ensured swift and accurate fills every time, perfectly suited to your operational pace and volume

Filling volume: 100-1000 ml, 200-2000 ml, 500-5000ml

Product Code	APG 5600				
Nozzle No	4	6	8	10	12
Capacity (bottle/h)	≤1300	≤1900	≤2600	≤3200	≤4000
Filling Precision	≤±0.5%				
Power Supply	220V / 380W 50-60Hz				
Compressor (Mpa)	0.5 - 0.8 Mpa				
Consumed Power (Kw)	2.5	2.5	2.8	3.5	3.5
Dimension (mm)	1600 X 1260 X 2550	2180 X 1260 X 2550	1600 X 1460 X 2550	1900 X 1460 X 2550	2180 X 1460 X 2550

Features

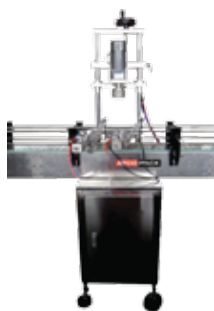

- » The filling range starts from 100-1000ml to 500- 5000ml.
- » Servo based system for filling volume.
- » Using double speed technology to improve production efficiency and prevent material from spilling out.
- » The adjustment of filling volume is convenient, can be set directly on the touch screen.
- » Special diving nozzles for foamy products.
- » No bottle, No filling function as standard.
- » Stable performance & high accuracy.

Capping Machine

At ATCOPACK, we specialize in a diverse range of capping solutions tailored to meet various industrial needs. Among our notable products is the "Linear Capping Machine for Plastic Caps" designed for efficient and consistent capping. For those seeking automation, our Capping machines offer precision and speed, ensuring containers are securely sealed with caps with safety and accuracy in the process.

Automatic Press Capping Machine

Single Head Automatic Screw Capping Machine

Linear High Speed Capping Machine (Screw Type)

Online Induction Cap Sealing Machine

Utilizing a sophisticated non-contact heating process, this machine perfects the art of hermetically Sealing containers.

Product Code	ARIGNITE-3000	ARIGNITE-2000	APSR-2000A
Machine Type	Water cooled		Air cooled
Sealing Diameter	20 to 148mm	20 to 60mm	20 to 120mm
Frequency	50-60Hz		
Output Power	3 KW	2 KW	3 KW

Sleeve Applicator & Shrink Machine

The Automatic Sleeve Applicator is an all-in-one labeling solution designed to streamline your production process. Widely utilized in the beverage, dairy products, cosmetics, food, alcohol, and pharmaceutical industries, this machine offers an impressive adaptability to various container shapes, including round, square, or flat bottles, yogurt cups, empty bottles, beer bottles, and more.

Features

- » High Stability of the mechanical structure.
- » A protective cover and man-machine interface operating system, makes the whole machine more simple to control and use.
- » The machine can be worked with the whole production line or as a stand alone machine.
- » Unique knife plate design, within the scope of our specification, can avoid changing it.
- » Forced sleeve-label style, very economical.
- » Overall rotation system, can be linked to adjustment, suitable for various label rolls'specification.
- » Inner diameter of the label roll: 5"-10", can be adjusted differently.

Double Side Self Adhesive Labeling Machine

Used for the surface labeling of square, flat & round objects in industries such as food, beverage, pharmaceutical, oil, cosmetics etc.

Round Bottle Self Adhesive Labeling Machine

Automatic labeling of round bottles in industries such as food, beverage, pharmaceutical, oil, cosmetics etc.

Sticker Orientation Labeling Machine For Round Bottles

This machine is a precision-oriented labeling solution designed for round bottles requiring specific label positioning.

Automatic Box Top Surface Labeling Machine

This machine is ideal for industries that require quick and efficient labeling processes. It is engineered to handle great flexibility for a broad range of packaging dimensions.

Automatic 3 Side Labeling Machine

This machine provides the flexibility of allowing seamless integration into any production line. It impresses with a yield of 30 to 120 pieces per minute depending on bottle and label size, ensuring high-speed labeling without compromising on accuracy.

Desktop Round Bottle Labeling Machine

High-performance labeling solution designed specifically for round bottles. Its compact desktop size doesn't compromise on speed or efficiency. It is an excellent choice for both small and large-scale operations.

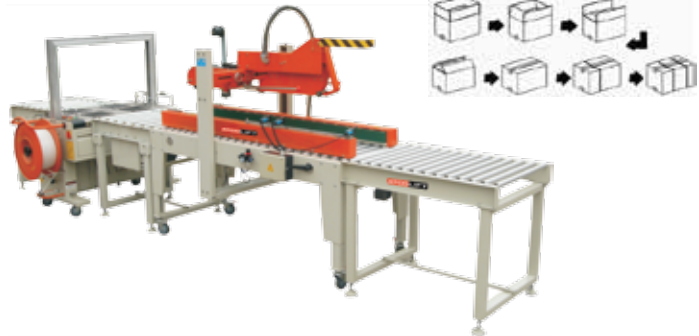

END OF LINE PACKING

Automatic Case Erector

This machine is used to automatically erect case and seal the bottom of the case with pressure-sensitive adhesive tape like PVC & BOPP.

Automatic Flap Folding Carton Sealer + Strapping Machine

Carton sealing strapping packaging line can complete the processes of flap folding, carton sealing, conveying and multi-passes strapping automatically.

Semi Auto Carton Sealer (Top & Bottom Belt)

Our Semi Automatic Carton Sealer is designed with advanced features and user-friendly controls, it offers seamless operation, allowing you to seal cartons quickly and securely.

Semi Automatic Strapping Machine

Beyond speed, strength is paramount. Our machine boasts a tension strength of up to 65kg, promising a tight and sturdy hold for your packages.

Automatic Strapping Machine

This machine can be used as Stand-alone or can be integrated into existing packaging lines.

Pallet Wrapping Machine

The Automatic Pre Stretch Wrappers Designed to work at variable speed to ensure an optimal wrapping suitable for a diverse range of products.

Fully Automatic Sleeve Seal Shrink + Tunnel

Fully-automatic sleeve seal shrink machine can convey the products automatically into shrink tunnel through conveying belt for shrink packaging.

Automatic L-Bar Sealer + Tunnel

Automatic L Bar Sealer + Tunnel, with its sealing capability is a game-change for businesses requiring efficient and high-volume packaging.

2 In 1 Shrink Packaging Machine

This Shrink Packaging Machine is a perfect blend of efficiency and versatility by sealing and shrinking in one machine.

Semi Automatic L Bar Sealer + Tunnel

Semi-automatic L-seal cutting machine can convey the products automatically into shrink tunnel through conveying belt for shrink packaging after sealing & cutting.

CODING & MARKING

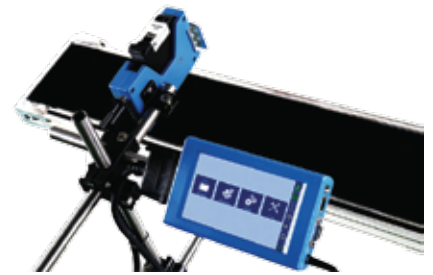

Continuous Ink Jet Printers

7" TFT color screen, with int'l standard QWERTY keypad

Handheld Carton Coder

Printing Resolution: 300DPI
Printable Heights from: 1~12.7 mm

High Resolution Inkjet printers

Printing Resolution: 50~600DPI
Printable Heights from: 1~76.2 mm

Multi-Heads Inkjet Printer

Printing Resolution: 50~600DPI
Printable Heights from: 1~76.2 mm

Thermal Transfer Overprinter (TTO)

TTO deliver high resolution images on flexible packaging film & labels

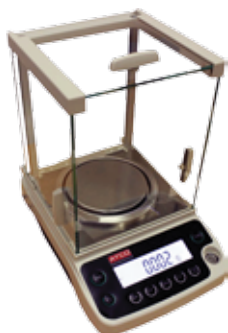

High Resolution Printer

With a print height of 32.4 mm with single head. Can combine 4 print head to get a print height of upto 128mm
