

APXF-105 Press capping Machine Including cap elevator

APXF-105 automatic linear capping machine is improved from the same type abroad, which adapt to market demand. It is universal in many specifications. The machine adopt mechanical electrical integration technology, which applied in pharmaceutical, pesticide, chemical, foodstuff, cosmetics etc.

Technical Parameter:

Model	APXF-105
Applied bottle range	500-5000ml
Applied cap size	Customized, for different size, need to change feeding tunnel
Yield of capping	>=99%
Power Supply	220V 50HZ
Power Consumption	<=2KW
Pressure	0.4-0.6Mpa
Speed Control	Frequency Conversion
Single machine noise	<=70Db
Weight	About 850kg
Dimension(LxWxH)	1800x1100x2600(mm)
Production Capacity	2000-4000 bottles/h
